WHAT	WHO	TIME	AGENDUM
Announcements			Next meeting scheduled March 9, 2016
Call to order	Andre O'Brien	1:32 p.m.	
Roll Call	Sylvia		There was a quorum.
Review and Approve Agendum	Andre O'Brien	1	Tim Skelton made a motion to approve the agenda. Second by Stephanie Yara. Motion carried unanimously.
Review and Approve Minutes from Previous ISC Meeting	Andre O'Brien	1	Last meeting held December 9, 2015 January 13, 2016 meeting cancelled.  ISC Minutes 12-09-15.pdf  Stephanie Yara made a motion to approve the December 9, 2015 Meeting Minutes; second by Tim Skelton.  Motion carried unanimously.
<b>Public Comment</b>			·
ISC Actions	All	22	Procurement service integration system. (Elaine Sacoman) \$84,500.00. The DFAS Purchasing Division requests to procure software as a service solution from Transcepta, Global Solution, which is the only Oracle validated procurement service integration system. The SaaS is a procure-to-pay network solution, an electronic data interchange (EDI) that will enable the City and its suppliers to exchange procurement documents via Trancepta's network supplier hub.  The SaaS will move the city from its current outdated paper-based exchange of purchasing documents to its suppliers through an electronic middleware supplier network hub system. Transcepta will receive an inbound file from the PeopleSoft ERP Purchasing module, and deliver purchase orders to suppliers via their preferred delivery method. In turn, the City will receive inbound invoices, purvhase order acknowledgements and advance shipping notices from the City's suppliers. Transcepta will process these documents documents to resolve them into a common format, and feed the resulting common format into the City's ERP system. Once in PeopleSoft, the invoice data documents will be automatically imported into PeopleSoft staging tables for further downstream invoice processing via the Voucher build process. Additionally, supplier invoice image files will be imported and made referenceable via the PeopleSoft voucher pages.

processing and payment timeline, enhance supplier relationships and reduce the risk of lowered born drinings due to late payments and leverage supplier discounts. It will also provide a portal for suppliers to check document processing and payment status to quickly obtain the payment status of invoices.  The initial cost associated with this acquisition includes a \$6,500.00 one-time set-up fee, which encompasses providing all supplier analhement tasks and a monthly fee of \$6,500.00 per month per \$500 contained suppliers. Should the City discover the requirement to add additional suppliers, the monthly fee will nominally increase per \$500 additional suppliers. Should the City discover the requirement to add additional suppliers. Monthly fee will nominally increase per \$500 additional suppliers. The contained the City of Alboquerque process, and answered question from the Committee.  Call to question by Peter Ambs. Motion to commence by Stephanie Yara. Tom Pino, Peter Taichert, and Ramona Martiner discussed the effectiveness. Transcepta would have with the City of Alboquerque process, and answered question from the Committee.  Call to question by Peter Ambs. Motion to commence by Stephanie Yara, second by Tim Skelton. Motion carried unanimously.  Balloon Museum - Ident Interactives (Dave Mathews), \$105,525,00. Creative development, software and hardware of two (2) touch screen computer interactive exhibits for the Balloon Museum's STEM-hased initiative, The Weather Lab. The interactives are being designed by Ideum, a Corrales-based company that has sole source rights to the product. Ideum specializes in high-end computer-based museum exhibits, writes the software and builds the hardware for these exhibits. The quote is broken down by the two interactives. There are some in-kind costs being provided by the museum, which are listed within the quote is broken down by the two interactives. There are some in-kind costs being provided by the museum, which are listed within the quote is broken down by the two interactiv		The SaaS will eliminate the manual processes involved in the management of paper documents and will greatly improve AP's invoice
for suppliers to check document processing and payment status to quickly obtain the payment status of invoices.  The initial cost associated with this acquisition includes a \$6,50,00 one-time set-up fee, which encompasses providing all supplier enablement tasks and a monthly fee of \$6,500.00 per month per 500 on-boarded suppliers, the monthly fee will non-inally increase per 500 additional suppliers, the monthly fee will non-inally increase per 500 additional suppliers, the monthly fee will non-inally increase per 500 additional suppliers, the monthly fee will non-inally increase per 500 additional suppliers, the monthly fee will non-inally increase per 500 additional suppliers. Monthly fee will non-inally increase per 500 additional suppliers, the monthly fee will non-inally increase per 500 additional suppliers. Monthly fee will non-inally increase per 500 additional suppliers. Monthly fee will non-inally increase per 500 additional suppliers, the feet of the fe		reduce the risk of lowered bond ratings due to late payments and leverage
The initial cost associated with this acquisition includes a \$65,900.00 one- time set-up fee, which encompasses providing all supplier enablement tasks and a monthly fee of \$6,500.00 per month per 500 on-boarded suppliers. Should the City discover the requirement to add additional suppliers.  Motion to commence discussion by Tim Skelton; second by Stephanie Yara. Tom Pino, Peter Taichert, and Ramona Martinez discussed the effectiveness Transcepta would have with the City of Albuquerque process, and answered question from the Committee.  Call to question by Peter Ambs. Motion to commence by Stephanie Yara, second by Tim Skelton. Motion carried unanimously.  Balloon Museum - Ideum Interactives (Dave Mathews), \$105,525.00. Creative development, software and hardware of two (2) touch screen computer interactive exhibits for the Balloon Museum's STEM-based initiative, The Weather Lab. The interactives are being designed by Ideum, a Corrales-based company that has sole source rights to the product. Ideum specializes in high-end computer-based museum exhibits, writes the software and builds the hardware for these exhibits. The quote is broken down by the two interactives. There are some dimensional control of the second order of these exhibits, and the product is broken down by the two interactives. There are some fined costs being provided by the museum, which are listed within the quote document and reflected in the overall project cost. The weather Lab is a STEM-based initiative that will serve as part of an overall strategy toward gaining accretication for the Balloon Museum's STEM of the wall of the product of the p		for suppliers to check document processing and payment status to quickly
suppliers. Should the City discover the requirement to add additional suppliers. Motion to commence discussion by Tim Skelton; second by Stephanie Yara.
